Programming
Problem Solving
Communication

Passionate IT professional with a diverse skill set encompassing HTML5, CSS3, Bootstrap, JavaScript, API integration, PHP, Go Lang, Python, responsive web design, MySQL, and Laravel. Proficient in version control using GitLab/GitHub. Demonstrates adept problem-solving abilities and excels in collaborative environments. Recently graduated with a diploma and keen to embark on a rewarding career path where I can apply my technical expertise, contribute to cutting-edge projects, and pursue continuous learning. Committed to becoming an integral part of a dynamic workplace culture that prioritizes innovation, teamwork, and ongoing professional development.

WORK EXPERIENCE

2020 - CURRENT
Freelancer

As a freelancer from 2020 to the present, I have been working independently while studying and managing my own projects for various clients. My main responsibilities include identifying potential clients, communicating with them to understand their needs and requirements, negotiating project terms, and delivering high-quality work on time and within budget.

2019 - 2020
U2 Protech Services - Designer & Technician

As a Designer and Technician at U2 Protech Services, I demonstrated proficiency in repairing and servicing mobile phones, adeptly identifying and troubleshooting various hardware and software issues. My responsibilities included repairing and replacing faulty components such as screens, batteries, and charging ports. I also contributed to the company's marketing efforts by utilizing my design skills to create visually appealing designs.
